RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern:

Ethanol in general takes more energy to produce, raises food prices, causes vehicles to be less efficient and now we have to ruin our motorcycles to subsidize some corrupt political scheme. When can I have my country back? Please allow me to have one part of the America I love and restore a little faith in my political leaders.

Thank you

Sincerely,

CARL TRUFFI, NY
