RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

ethanol usage is a well meant farce wasting a food crop to create alcohol as a fuel. even 10% alcohol is a bad use of corn, it is a food not a fuel source. stop the use of alcohol as a fuel altogether. wake up to the facts that by the time corn is grown and processed into alcohol it is a losing tradeoff; and your efforts raise the price of corn as a food. great logic..

Sincerely,
Chuck Fairchild, NM
