RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

This is a fiasco! Please take the correct action and limit the amount of ethanol to a max of 10%. Its the right thing to do. All this confusion and potential action which may ruin peoples property, is a perfect example why people are losing faith in our government.

Again, please limit ethanol to 10% as an additive to fuel.

Sincerely,  
Gerry Fogel, CA
