RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

We need to stop this government driven insanity. PUSHING E15 is nothing but a strain on this economy and an affront to citizens impacted by this dangerous, misguided policy. Engines cost real money. Where will the EPA be hiding when we're stuck with repair bills and increased fuel and food costs?

Sincerely,
Kerry Walker
Missouri
