RE: 16 CFR Part 306; Automotive Fuel Ratings, Certification and Posting; Project No. R811005

To Whom It May Concern,

The Commission proposes amendments to its Rule for Automotive Fuel Ratings, Certification and Posting ("Fuel Rating Rule" or "Rule") that would adopt and revise rating, certification, and labeling requirements for ethanol-gasoline blends and would allow an alternative octane rating method. The proposed amendments further the Rule's goal of helping purchasers identify the correct fuel for their vehicles.

I would like to buy ethanol free fuel for my vehicles, the EPA acknowledges that ethanol damages engines.

CONFIDENTIAL

Sincerely,
