We keep getting calls from the same companies over and over. It seems that they have no regard to abiding by the rules and a much stiffer enforcement is needed. There has to be a way to punish them when they are reported. Up to now reporting has not worked for us. Once they are caught, the penalties need to be heavy.

Please strengthen the Do Not Call Registry enforcement to prevent daily calls from spoofed phone numbers. They ignore requests to stop calling. They claim they are within the law.

It will require a technological fix to track them down. Only the FTC can force phone companies to do this. Require them to do it. Do not accept "too expensive" as an excuse. Fine them for failure to prevent untraceable, spoofed calls. Fine them for providing these crooks the means to harass millions of people, not to mention cheating the few who do business with them.

Get rid of the loopholes.

Banks, insurance companies etc. say they give my personal info to clients for marketing purposes. AKA as spammers on the phone. I recently told a cobra choker using an American name that I had insurance and why was she calling me. The call was from CA. Political calls!! These are the people who are supposed to pass laws and they need to obey them by not calling me. I make up my own mind on who to vote for. If I need a product or service, I know how to use a phone book.

STOP THESE CALLS!

Dear FTC,

The Telemarketing Sales Rule (TSR) has battled telemarketing fraud and deception for nearly two decades. As an Illinois consumer who's fed up with annoying sales calls, please keep and strengthen these consumer protections.

Despite being on the Do Not Call Registry since its inception, I get obnoxious telemarketing calls on my home phone daily from entities with which I have never had any relationship. My only recourse is never to pick up a call from an unknown or unidentified number. But some of these go on to leave me voicemail messages which I must then listen to long enough to identify the nature of the call and delete it. And some of the callers are scammers hiding behind a false caller ID that causes me to pick up, e.g., "Microsoft", until I hear what they're up to and hang up. None that I have spoken to and asked to have my number removed from their calling list has ever honored my request. This is incredibly invasive and troubling, particularly when I am very busy and trying to cope with serious family issues.

Specifically, I ask that you:

- 1) Strengthen Do Not Call Registry enforcement by requiring telemarketers to provide recordings of their calls.
- 2) Ban third-party use of my personal account information (pre-acquired account info) unless I give consent.

There are several that are totally ridiculous, primarily a company called card holder services that refuse to remove names even when operators are expressly asked to remove same.

I have removed caller ID from my phone so I cannot give phone numbers, but there are a couple of more quite similar that I have not been able to get the names given. Between those and the ones that don't even bother to say anything, I get at least 3 calls a day - every day !!!

Subject: Stronger telemarketing rules!

Dear FTC,

The Telemarketing Sales Rule (TSR) has battled telemarketing fraud and deception for nearly two decades. As an Illinois consumer who's fed up with annoying sales calls, please keep and strengthen these consumer protections.

Specifically, I ask that you:

- 1) Strengthen Do Not Call Registry enforcement by requiring telemarketers to provide recordings of their calls.
- 2) Ban third-party use of my personal account information (pre-acquired account info) unless I give consent.
- 3) Enforce strong consumer protections--whether I get a sales call or respond to an ad and call a telemarketer.

Please stand up for consumers, and strengthen the nation's telemarketing regulations!

Sincerely,
Ms. Sharon Johnston

I have been on the "do not call" list since it's inception.

I kept track for a couple of months and there were days I had 7 or 8 unwanted calls. It has gotten so I don't answer any number I don't recognize and that's a shame because I have missed some legitimate calls. I sometimes think someone sold the "do not call list."
