STATEMENT OF COMMISSIONER ROHIT CHOPRA

On the Senate's Vote to Confirm Lina Khan

June 15, 2021

The overwhelming support in the Senate for Lina Khan's nomination to serve on the Federal Trade Commission is a big win for fair competition in our country. There is a growing consensus that the FTC must turn the page on the failed policies spanning multiple administrations. Lina has an extraordinary record of achievement, and she will be instrumental in helping the Commission chart a new course grounded in rigor and reality.
