MEMORANDUM

FROM: Andrew Katsaros
       Inspector General

TO: Lina M. Khan, Chair

SUBJECT: Report on Audit of the FTC’s Fiscal Year 2021 and 2020 Financial Statements

I am pleased to provide you with the attached audit report required by the Accountability of Tax Dollars Act of 2002, which presents an unmodified opinion on the Federal Trade Commission’s (FTC) financial statements for fiscal years 2021 and 2020. We commend the FTC for attaining an unmodified (clean) opinion for the 25th consecutive year.

We contracted with the independent certified public accounting firm of Brown & Company CPAs and Management Consultants, PLLC (Brown & Company), to audit the financial statements of the FTC as of and for the fiscal years ended September 30, 2021 and 2020, and to provide reports on internal control over financial reporting and compliance with laws and other matters. The contract required the audit be performed in accordance with U.S. generally accepted government auditing standards, Office of Management and Budget audit guidance, and the Government Accountability Office/Council of the Inspectors General on Integrity and Efficiency’s Financial Audit Manual.

In its audit, Brown & Company found that

- the FTC’s financial statements as of and for the fiscal years ended September 30, 2021 and 2020, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles;
- no material weaknesses in internal control over financial reporting based on the limited procedures performed; and
- no reportable noncompliance for fiscal year 2021 with provisions of applicable laws, regulations, contracts, and grant agreements tested.

Brown & Company is responsible for the attached auditor’s report dated November 12, 2021, and the conclusions expressed in the report. We do not express opinions on FTC’s financial statements or conclusions about the effectiveness of internal control or conclusions on compliance with laws and regulations.
We appreciate the cooperation given by management to Brown & Company and the Office of Inspector General during the audit. If you have any questions or would like to discuss the report, please contact me at (202) 326-3527.

INDEPENDENT AUDITOR’S REPORT

Inspector General
Federal Trade Commission
Washington, D.C.

In our audits of the fiscal years 2021 and 2020 financial statements of the Federal Trade Commission (FTC), we found:

• FTC’s financial statements as of and for the fiscal years ended September 30, 2021, and 2020, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles;

• no material weaknesses in internal control over financial reporting based on the limited procedures we performed; and

• no reportable noncompliance for fiscal year 2021 with provisions of applicable laws, regulations, contracts, and grant agreements we tested.

The following sections discuss in more detail (1) our report on the financial statements, which includes required supplementary information (RSI) and other information included with the financial statements; (2) our report on internal control over financial reporting; and (3) our report on compliance with laws, regulations, contracts, and grant agreements.

Report on the Financial Statements

In accordance with the provisions of the Accountability of Tax Dollars Act of 2002 (ATDA) (Pub. L. No. 107-289), we have audited FTC’s financial statements. FTC’s financial statements comprise the balance sheets as of September 30, 2021, and 2020; the related statements of net cost, changes in net position, budgetary resources, and custodial activity for the fiscal years then ended; and the related notes to the financial statements.

We conducted our audits in accordance with U.S. generally accepted government auditing standards and the provisions of OMB Bulletin No. 21-04, Audit Requirements for Federal Financial Statements. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinions.

Management’s Responsibility

FTC management is responsible for (1) the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; (2) preparing, measuring, and presenting the RSI in accordance with U.S. generally accepted accounting principles; (3) preparing and presenting other information included in documents containing the audited financial statements and auditor’s report, and ensuring the consistency of that information with the audited financial statements and the RSI; and (4) maintaining effective internal control over financial reporting, including the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. U.S. generally accepted government auditing standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. We are also responsible for applying certain limited procedures to RSI and other information included with the financial statements.

An audit of financial statements involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the auditor’s assessment of the risks of material misst atement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit of financial statements also involves evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. Our audits also included performing such other procedures as we considered necessary in the circumstances.

Opinion on Financial Statements

In our opinion, FTC’s financial statements present fairly, in all material respects, FTC’s financial position as of September 30, 2021, and 2020, and its net cost of operations, changes in net position, budgetary resources, and custodial activity for the fiscal years then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles issued by the Federal Accounting Standards Advisory Board (FASAB) require that the RSI be presented to supplement the financial statements. Although the RSI is not a part of the financial statements, FASAB considers this information to be an essential part of financial reporting for placing the financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with U.S. generally accepted government auditing standards, which consisted of inquiries of management about the methods of preparing the RSI and comparing the information for consistency with management’s responses to the auditor's inquiries, the financial statements, and other knowledge we obtained during the audit of the financial statements, in order to report omissions or material departures from FASAB guidelines, if any, identified by these limited procedures. We did not audit and we do not express an opinion or provide any assurance on the RSI because the limited procedures we applied do not provide sufficient evidence to express an opinion or provide any assurance.
Other Information

FTC’s other information contains a wide range of information, some of which is not directly related to the financial statements. This information is presented for purposes of additional analysis and is not a required part of the financial statements or the RSI. We read the other information included with the financial statements in order to identify material inconsistencies, if any, with the audited financial statements. Our audit was conducted for the purpose of forming an opinion on FTC’s financial statements. We did not audit and do not express an opinion or provide any assurance on the other information.

Report on Internal Control over Financial Reporting

In connection with our audits of the FTC’s financial statements, we considered the FTC’s internal control over financial reporting, consistent with our auditor’s responsibility discussed below. We performed our procedures related to the FTC’s internal control over financial reporting in accordance with U.S. generally accepted government auditing standards.

Management’s Responsibility

FTC management is responsible for maintaining effective internal control over financial reporting, including the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

In planning and performing our audit of FTC’s financial statements as of and for the year ended September 30, 2021, in accordance with U.S. generally accepted government auditing standards, we considered the FTC’s internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the FTC’s internal control over financial reporting. Accordingly, we do not express an opinion on the FTC’s internal control over financial reporting. We are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses. We did not consider all internal controls relevant to operating objectives, such as those controls relevant to preparing performance information and ensuring efficient operations.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency of combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.
Definition and Inherent Limitations of Internal Control over Financial Reporting

An entity’s internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, the objectives of which are to provide reasonable assurance that (1) transactions are properly recorded, processed, and summarized to permit the preparation of financial statements in accordance with U.S. generally accepted accounting principles, and assets are safeguarded against loss from unauthorized acquisition, use, or disposition, and (2) transactions are executed in accordance with provisions of applicable laws, including those governing the use of budget authority, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements due to fraud or error.

Results of Our Consideration of Internal Control over Financial Reporting

Our consideration of internal control was for the limited purpose described above, and was not designed to identify all deficiencies in internal control that might be material weaknesses and significant deficiencies or to express an opinion on the effectiveness of the FTC’s internal control over financial reporting. Given these limitations, during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Intended Purpose of Report on Internal Control over Financial Reporting

The purpose of this report is solely to describe the scope of our consideration of the FTC’s internal control over financial reporting and the results of our procedures, and not to provide an opinion on the effectiveness of the FTC’s internal control over financial reporting. This report is an integral part of an audit performed in accordance with U.S. generally accepted government auditing standards in considering internal control over financial reporting. Accordingly, this report on internal control over financial reporting is not suitable for any other purpose.

Report on Compliance with Laws, Regulations, Contracts, and Grant Agreements

In connection with our audits of FTC’s financial statements, we tested compliance with selected provisions of applicable laws, regulations, contracts, and grant agreements consistent with our auditor’s responsibility discussed below. We caution that noncompliance may occur and not be detected by these tests. We performed our tests of compliance in accordance with U.S. generally accepted government auditing standards.

Management’s Responsibility

FTC management is responsible for complying with laws, regulations, contracts, and grant agreements applicable to the FTC.
Auditor’s Responsibility

Our responsibility is to test compliance with selected provisions of applicable laws, regulations, contracts, and grant agreements applicable to FTC that have a direct effect on the determination of material amounts and disclosures in FTC’s financial statements, and perform certain other limited procedures. Accordingly, we did not test compliance with all laws, regulations, contracts, and grant agreements applicable to FTC.

Results of Our Tests for Compliance with Laws, Regulations, Contracts, and Grant Agreements

Our tests for compliance with selected provisions of applicable laws, regulations, contracts, and grant agreements disclosed no instances of noncompliance for fiscal year 2021 that would be reportable under U.S. generally accepted government auditing standards. However, the objective of our tests was not to provide an opinion on compliance with laws, regulations, contracts, and grant agreements applicable to FTC. Accordingly, we do not express such an opinion.

Intended Purpose of Report on Compliance with Laws, Regulations, Contracts, and Grant Agreements

The purpose of this report is solely to describe the scope of our testing of compliance with selected provisions of applicable laws, regulations, contracts, and grant agreements, and the results of that testing, and not to provide an opinion on compliance. This report is an integral part of an audit performed in accordance with U.S. generally accepted government auditing standards in considering compliance. Accordingly, this report on compliance with laws, regulations, contracts, and grant agreements is not suitable for any other purpose.
