FORMER OWNERS	\$4,627 – \$7,747	\$4,269 – \$8,807

- Amounts reflect the total payments by VW and Bosch. Ranges are approximate, before any mileage adjustments.
- An **Approved Emissions Modification** will reduce the vehicle’s NOx emissions, but will not make it compliant with the originally certified standards. A **Certified Emissions Repair** will make the car fully compliant with the originally certified emission standards. Modification and repair options will only be available **if approved** by EPA and CARB.
- If a Certified Emissions Repair is **NOT** available within the timeframe of the FTC Order, Generation 2 owners/lessees will have a choice of a Buyback or Lease termination plus an additional payment OR an Approved Emissions Modification plus payment.
