

Data

2015 SUSB Annual Data Tables by Establishment Industry

January 2018

SUSB annual or static data include number of firms, number of establishments, employment, and annual payroll for most U.S. business establishments. The data are tabulated by geographic area, industry, and employment size of the enterprise. The industry classification is based on 2012 North American Industry Classification System (NAICS) codes. An establishment with 0 employment is an establishment with no paid employees in the mid-March pay period but with paid employees at some time during the year.

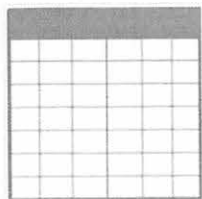

Receipts data are available only for Economic Census years (years ending in 2 and 7). View the latest receipts data in the 2012 SUSB Annual Data Tables by Establishment Industry.

Data User Notice posted on February 6, 2018: Census Bureau staff identified a processing error that affects selected data from the 2015 Statistics of U.S. Businesses (SUSB). As a result, we suppressed selected 2015 employment and

area; Bernalillo County, New Mexico; and Congressional District 01 of New Mexico. This processing error did not affect any other geographic areas.

Data by Enterprise Employment Size

The following links are subsets of SUSB data in spreadsheet format. For more detailed industry and employment size classes, download additional data in comma-delimited format from the SUSB Annual Datasets page.
