FOIA-2022-01243	I am a senior at the University of Arkansas and am working on my Honors Thesis. I am looking for data reports similar to the reports on the Data and Visualizations page such as the infographics on do-not-call lists. I'm not sure about the FTC's process of regulating environmental advertisements, whether there is a screening process or only regulating after a complaint is made. Depending on the process, I would like to know how many requests for screening and/or complaints are made about environmental advertisements monthly/annually. In addition to this, I would like to know what type of complaints were made, such as recycled content claims, carbon offset claims, etc. My goal is to write my thesis on greenwashing and back it up with data that shows how well the laws work to minimize deceptive environmental claims. I'm not sure if the FTC has this type of data, but I would be grateful if so. Thank you for your time and consideration and I hope my request made sense. FOIA-2022-00777	I'm looking for consumer complaints related to the case described below: https://www.justice.gov/opa/pr/peruvian-brothers-sentenced-more-seven-years-prison-defrauding-thousands-spanish-speaking Josmell Espinoza and his brother Carlos Espinoza pleaded guilty in late 2021 to conspiring to commit mail fraud and wire fraud through several Peruvian call centers that they owned and operated. According to court documents, Jasmell Espinoza and Carlos Espinoza co-owned and operated the JFC Peru call center in Peru. In addition, Jasmell Espinoza owned and operated the Camino Al Progreso and Latin Shop call centers, and Carlos Espinoza separately owned and operated the Latinos en Accion and Latin Force call centers in Peru. From April 2011 until July 2019, the Espinoza brothers and their co-conspirators in Peru called victims — many of whom were recent immigrants from Central America, Mexico and other Spanish-speaking countries — and fraudulently threatened them with legal consequences if they did not make payments for purportedly delivered products and settlement fees for English-language classes. The defendants and their co-conspirators used false statements and threats to obtain money from victims across the United States by falsely telling the victims that they were required to accept and pay for English-language courses and other educational products and that failure to do so placed	Badell, Betsy	NBC Universal/ Telemundo	Closed

	them in legal jeopardy. The defendants and their co-conspirators then falsely threatened to have their victims arrested and deported in order to collect payments from them. In pleading guilty, both defendants admitted that they and their employees falsely claimed to be lawyers, court officials, federal agents and representatives of a so-called "minor crimes court," which does not exist. The callers falsely threatened victims with court proceedings, negative marks on their credit reports, imprisonment and immigration consequences if they did not immediately pay for the purportedly delivered products and settlement fees. Carlos Espinoza caused victims to lose over \$1.3 million, and Josmell Espinoza caused victims to lose over \$700,000. (Date Range for Record Search: From 01/01/2015 To 09/30/2017)

FOIA-2022-00474	I wish to request any records that the FTC has that pertain to the status or the processing of "do not call" complaints that I have submitted, Included within the scope of this request are records of any investigation in which my complaints were used, and copies of any referrals of my complaints for prosecution or to any law enforcement agency, and any other information pertaining to the complaints. In particular I request traceback information for each call that I complained about where such information exists. In addition, I wish to request copies of any manual, handbook, or internal memoranda that contain the criteria or procedures for deciding whether to investigate a "do not call" complaint or refer it to law enforcement, and any statistics regarding the percentage of complaints that are investigated (for example, number of complaints received in 2020 and 2021 and number of those complaints that resulted in an investigation, a referral to a law enforcement agency, or prosecution). I understand that the FTC has the discretion to grant or deny access to records regarding ongoing investigations. Since I am the complaining party, and the only harm caused by public disclosure is if the perpetrator is prematurely informed of the investigation, I respectfully request that FTC exercise its discretion to grant any portion of this request that it may disclose under law, in accordance with the current Administration's policy of openness and transparency, even if it is not required to do so. FOIA-2022-00610	Hello, I am correcting a request that went out ~ to the wrong email and phone number due to auto fill. This request is in regard to love/romance scammer activity or any other activity, impersonations and the like on Facebook and Google and Instagram. I myself have reported many imposters, swindlers, and attempted romance scammers. Everyone knows all of these companies track each user, their location, and each message sent. I am looking for the information they have when something like this is reported to them. It seems that these profiles are allowed to stay online and sketchy individuals are allowed to use their platforms to continuously scam and cheat others. I am asking for the information regarding their use, how many reports they get, And why even after multiple requests from other users they allow these scammers to remain active? Everyone knows they keep all of the records meticulously and knows where everyone is on the planet. They seem to punish other users having different opinions, but nonetheless the impersonators and scammers are still allowed to use their platforms to conduct their business with no issue. I am looking for the records which I'm sure they have, regarding reports of fakes, scammers, stolen pictures, and whatever else there may be. For the year of 2021, 2020, and 2019.
