## A One-stop Solution for Your Hiring Challenges

The toughest challenges faced by corporations when it comes to hiring are a small talent pool to choose from, skills gap among graduates, high acquisition and training costs, and rapidly evolving skillset requirements. Sollers makes hiring efficient and effective by delivering high-quality job-ready candidates with the skills, competencies, and other requirements **as defined by you**.

## Student Success Stories

Syune arrived at Sollers, having completed her PhD in Biology at a Swedish University. Despite having worked as a research scientist in Armenia, Poland, and Sweden, she had no US-based experience, which was limiting her ability to pursue a satisfying science focused career.

After finishing the Clinical Trial Management program at Sollers in Jan, 2019, Syune was hired by Catalyst Pharmaceuticals as a Clinical Research Associate, Clinical Trial industry 🙌
