If this is a filing for the acquired person, you should list the acquired entity and all entities within it, not all the subsidiaries of the acquired person.

Hello!

I have a question regarding the notification form. Item 6(a) calls for us to list subsidiaries of the filing person. The instructions direct us to list the name, city and state/country of all US entities, and all foreign entities that have sales in or into the US that are included within the person filing notification. Will you please confirm that this means we should include the entity(s) being acquired if the acquired entity is not its own UPE?"

Thank you,
