7/1/2022	FOIA-2022-01243	Fowler, Katie	Educational/Non-Scientific	I am a senior at the University of Arkansas and am working on my Honors Thesis. I am looking for data reports similar to the reports on the Data and Visualizations page such as the infographics on do-not-call lists. I'm not sure about the FTC's process of regulating environmental advertisements, whether there is a screening process or only regulating after a complaint is made. Depending on the process, I would like to know how many requests for screening and/or complaints are made about environmental advertisements monthly/annually. In addition to this, I would like to know what type of complaints were made, such as recycled content claims, carbon offset claims, etc. My goal is to write my thesis on greenwashing and back it up with data that shows how well the laws work to minimize deceptive environmental claims. I'm not sure if the FTC has this type of data, but I would be grateful if so. Thank you for your time and consideration and I hope my request made sense.
