DEFINITIONS

For the purpose of this Order, the following definitions apply:

A. **"Billing Information"** means any data that enables any person to access a customer's account, such as a credit card, checking, savings, share or similar account, utility bill, mortgage loan account, or debit card.

B. **"Charge," "Charged," or "Charging"** means any attempt to collect money or other consideration from a Merchant, including causing Billing Information to be submitted for payment, including against the Merchant's credit card, debit card, bank account, telephone bill, or other account.

the following ways:

1. In any communication that is solely visual or solely audible, the disclosure must be made through the same means through which the communication is presented. In any communication made through both visual and audible means, such as a television advertisement, the disclosure must be presented simultaneously in both the visual and audible portions of the communication even if the representation requiring the disclosure is made in only one means.
2. A visual disclosure, by its size, contrast, location, the length of time it appears, and other characteristics, must stand out from any accompanying text or other visual elements so that it is easily noticed, read, and understood.
3. An audible disclosure, including by telephone or streaming video, must be delivered in a volume, speed, and cadence sufficient for ordinary consumers to easily hear and understand it.
4. In any communication using an interactive electronic medium, such as the Internet or software, the disclosure must be unavoidable.
5. The disclosure must use diction and syntax understandable to ordinary consumers and must appear in each language in which the representation that requires the disclosure appears.
6. The disclosure must comply with these requirements in each medium through which it is received, including all electronic devices and face-to-face communications.

7. The disclosure must not be contradicted or mitigated by, or inconsistent with, anything else in the communication.

8. When the representation or sales practice targets a specific audience, such as Merchants, children, the elderly, or the terminally ill, “ordinary consumers” includes reasonable members of that group.
